ABOUT US

Media Art Advertising has been established since 2008 and has been a leader in the professional printing and design services within the printing industry. Our company boasts a highly skilled, energetic, and creative team.

We excel in this field due to our extensive experience in mass production, as well as our bulk purchasing power, which allows us to secure highly competitive prices for most materials. We proudly offer a best price guarantee to our clients.

With the trust of our satisfied customers and suppliers, **Media Art Advertising** has consistently grown over the years to meet the expanding needs of our clientele. To remain at the forefront of the industry, we are continually improving our services and investing in the latest machinery. This commitment enables us to provide our valued customers with the highest quality print output and remarkably quick turnaround times. Additionally, we offer free color proofing for all projects, ensuring our customers achieve the ideal color results they desire.

Our customer base primarily consists of advertising agencies, designers, exhibition builders, and professionals in the events and signage industries. We are dedicated to delivering exceptional service and exceeding the expectations of our clients.

MISSION

Our mission is to become a leading printing center by providing high-quality and unique products that deliver maximum benefits to our customers. We aim to offer the best products and services tailored to meet our customers' needs, while also actively seeking and incorporating their feedback to enhance their image. We are committed to working hand in hand with our customers to develop meaningful relationships. With our years of experience, we are confident in our ability to provide customers with satisfactory solutions for their printing and design needs.

VISION

Our vision is to be internationally recognized as the premier printing and graphic company that best fulfills the needs of quality-minded, cost-conscious, deadline-driven, and service-oriented customers in the field of Large Format Printing. We will achieve this by utilizing advanced technologies to produce a superior rate of return on invested capital, ensuring strong and consistent growth.

LARGE FORMAT PRINTING

An inkjet printer is any printer that places extremely small droplets of ink onto paper to create an image. If you ever look at a piece of paper that has come out of an inkjet printer, you know that:

The dots are extremely small (usually between 50 and 60 microns in diameter) The dots are positioned very precisely, with resolutions of up to 1440x720 dots per inch (dpi). The dots can have different colors combined together to create photo-quality images.

Achieve Your Business Aim

We print on material such as

- Outdoor banner
- Outdoor bunting
- Poster
- Backdrop
- Wallsticker
- Polycarbonate Direct Print
- PP Board
- Roadtax sticker
- Car Sticker

DIGITAL PRINTING

Digital printing doesn't use plates the way offset does, but instead uses options such as toner (like in laser printers) or larger printers that use liquid ink. Digital printing shines when lower quantities are needed; think of a run of 20 greeting cards or 100 flyers. Another benefit of digital printing is it's variable data capability. When each piece needs a unique code, name or address, digital is the only way to go. Offset printing cannot accommodate this need.

OFFSET PRINTING

Offset printing technology uses plates, usually made from aluminum, which are used to transfer an image onto a rubber "blanket", and then rolling that image onto a sheet of paper. It's called offset because the ink is not transferred directly onto the paper. Offset printing is the best choice when larger quantities are needed, and provides accurate color reproduction, and crisp, clean professional looking printing.

Signs or signage related products serve as a primary link between a business and its customers. It can be an essential component of a business's overall marketing strategy, and also a silent salesperson for your business. A sign that contains a business's logo can help reinforce its brand. Especially when an exterior sign is visible 24 hours a day, 365 days a year, its exposure is prominent and continuous.
